

Features

- The simplest installation of a LED strip. This 2000mm length raw aluminium profile improves LED strip's adhesion with a very flat design (3,8mm height). It is to be used without a cover with a maximum LED strip width of 16mm. Additional accessories need to be ordered separately.

Product Overview

Product name	Profile HO Surface 16 (20x4) raw alu. 2m
Technology	Accessory
Housing	Aluminium
General application	Retail
ETIM Class	EC002557
Housing colour	Silver
Product EAN number	5410288226040
Warranty	3 years
