

Features

- The simplest installation of a LED strip. This 3000mm length raw aluminium profile improves LED strip's adhesion with a very flat design (3,8mm height). It is to be used without a cover with a maximum LED strip width of 16mm. Additional accessories need to be ordered separately.

Product Overview

Product name	Profile HO Surface 16 (20x4) raw alu. 3m
Technology	Non - Electrical Device
Housing	Aluminium
General application	Retail
ETIM Class	EC002557
Housing colour	Silver
Product EAN number	5410288226132
Warranty	3 years
