

Pixo Line 1500mm Faisceau 90° 840 Noir
0007822

Caractéristiques de la gamme

• Le système de rail linéaire ajoute de la flexibilité à n'importe quel espace grâce à la variété des options de produits. Offre une installation facile avec deux modules séparés Mécanisme d'insertion/sortie avec connecteur GR6d-15 Compatible avec le Zhaga Book 14 Boîtier en aluminium, embouts en plastique, diffuseur optique translucide, angle de faisceau lumineux : 90° Couleur de finition noire texturée. Température de couleur : 4000K, blanc neutre, max. Puissance du système : 50W Flux lumineux :7400lm, efficacité : 148lm/W, typique Ra...

CIBSE TM66

Result					
Category	Points Scored	Maximum possible points	Assessment	How to analyse the score	
Product design	61	134.0	1.8	0.0 to 0.5	Very poor circular economy performance
Manufacturing	17.1	46.5	1.5	0.5 to 1.5	Some circular economy functionality
Materials	6	24.0	1	1.5 to 2.5	Definite/substantial progress to circularity
Ecosystem	21	43.0	2	2.5 to 4.0	Excellent circularity
Overall performance	105.1	247.5	1.58		

Technical Memorandum (TM) 66 describes a Circular Economy’s main aims, how it can be achieved and what it’s practice will mean to the different branches of our industry like specifiers, manufacturers, contractors, and Facilities Managers.

The Circular Economy Assement Method for Manufacturing (CEAM-Make)’s list of 66 searching questions, the majority of which askfor back-up evidence, is split into four sections :

- Product Design :
- Covering topics such as design for long life and repair
- Manufacturing :
- Additive and subtractive techniques and localisation
- Materials :
- Usage of recyclable materials rather than virgin
- Ecosystem :
- Repair or upgrade services to complement circular economy design

The outcome of the assement is a single figure rating by which product comparisons can be made. A TM66 score demonstrates a product’s performance in the context of a Circular Economy
