

Resisto 600 IP66 19W 2500lm 840  
0010203

Caractéristiques de la gamme

• Resisto 600 IP66 19W 2500lm 840 - Solution étanche Led en polycarbonate. Étriers coulissants en inox 301 et platine LED fixée à la vasque. Pré-perçage aux extrémités pour 1 ou 2 presses-étoupes. Température de couleur 4000K, IRC80. Flux lumineux sortant 2500lm. Puissance consommée 19W. Efficacité lumineuse : 132lm/W. Facteur de puissance : 0,95. Taux de distorsion harmonique : 20%. Durée de vie (L80) : 69.000h Risque photobiologique RG1, IP66, IK08. Test au fil incandescent 850°C. Températures de fonctionnement de -20°C à 40°C. Classe...

| Overall performance | 104.2         | 247.5                   | 1.50       |                          |                                              |

Technical Memorandum (TM) 66 describes a Circular Economy’s main aims, how it can be achieved and what it’s practice will mean to the different branches of our industry like specifiers, manufacturers, contractors, and Facilities Managers.

The Circular Economy Assement Method for Manufacturing (CEAM-Make)’s list of 66 searching questions, the majority of which askfor back-up evidence, is split into four sections :

- Product Design :  
Manufacturing :  
Materials :  
Ecosystem :
- Covering topics such as design for long life and repair  
Additive and subtractive techniques and localisation  
Usage of recyclable materials rather than virgin  
Repair or upgrade services to complement circular economy design

The outcome of the assement is a single figure rating by which product comparisons can be made. A TM66 score demonstrates a product’s performance in the context of a Circular Economy
