

Insaver Slim IP44 225 40W 4950lm 840  
0030311

Caractéristiques de la gamme

• Insaver Slim IP44 225 4950lm 840 - Downlight LED rond avec dissipateur aluminium alliant confort visuel et performances élevées. Lentilles en polycarbonate spécialement conçues avec réflecteur en aluminium. Température de couleur (CCT) 4000K, IRC80. Flux lumineux sortant 4950 lm. Puissance consommée 40W. Efficacité lumineuse 124 lm/W. SDCM:3. Durée de vie (L80) : 90.000h. Certifié ENEC. IP44, IK07. Classe II. 650°C. Diamètre 240mm. Hauteur 60mm. Poids 0.8kg. Garantie 5 ans. Sylvania est signataire de la charte LED.

| Product design      | 60            | 134.0                   | 1.8        | 0.0 to 0.5               | Very poor circular economy performance       |
| Manufacturing       | 17.1          | 46.5                    | 1.5        | 0.5 to 1.5               | Some circular economy functionality          |
| Materials           | 0             | 24.0                    | 0          | 1.5 to 2.5               | Definite/substantial progress to circularity |
| Ecosystem           | 18            | 43.0                    | 1.7        | 2.5 to 4.0               | Excellent circularity                        |
| Overall performance | 95.1          | 247.5                   | 1.25       |                          |                                              |

Technical Memorandum (TM) 66 describes a Circular Economy’s main aims, how it can be achieved and what it’s practice will mean to the different branches of our industry like specifiers, manufacturers, contractors, and Facilities Managers.

The Circular Economy Assement Method for Manufacturing (CEAM-Make)’s list of 66 searching questions, the majority of which askfor back-up evidence, is split into four sections :

- Product Design :  
Manufacturing :  
Materials :  
Ecosystem :
- Covering topics such as design for long life and repair  
Additive and subtractive techniques and localisation  
Usage of recyclable materials rather than virgin  
Repair or upgrade services to complement circular economy design

The outcome of the assement is a single figure rating by which product comparisons can be made. A TM66 score demonstrates a product’s performance in the context of a Circular Economy
