

## OPTIX E 600 3L SO 20W 2900lm 840 BLA 2023634

### Caractéristiques de la gamme

• OPTIX E 600 3L SO 20W 2900lm 840 BLA - luminaire encastré à haute efficacité et à faible éblouissement pour les applications tertiaires. Optique à très faible luminance en polycarbonate finition blanche dans une configuration à 3 lignes. Luminaire recouvrable de laine de verre ou isolant acoustique. Très faible scintillement <5%. Température de couleur (CCT) 4000K, IRC>80, consistance des couleurs SDCM<3. Flux lumineux sortant 2900 lm. Puissance consommée 20W. Efficacité lumineuse 145 lm/W. Maintien du flux de L80>107 500h. Eblouiss...

| Overall performance | 127.4         | 247.5                   | 1.88       |                          |                                              |

Technical Memorandum (TM) 66 describes a Circular Economy's main aims, how it can be achieved and what it's practice will mean to the different branches of our industry like specifiers, manufacturers, contractors, and Facilities Managers.

The Circular Economy Assement Method for Manufacturing (CEAM-Make)'s list of 66 searching questions, the majority of which askfor back-up evidence, is split into four sections :

- Product Design :  
Manufacturing :  
Materials :  
Ecosystem :
- Covering topics such as design for long life and repair  
Additive and subtractive techniques and localisation  
Usage of recyclable materials rather than virgin  
Repair or upgrade services to complement circular economy design

The outcome of the assement is a single figure rating by which product comparisons can be made. A TM66 score demonstrates a product's performance in the context of a Circular Economy

CIBSE (2021) Circular Economy Assessment Method - Make TM66 Digital Tool beta version 22nd October 2021 (London : Chartered Institution of Building Services Engineers)
