

Caractéristiques de la gamme

- Luminaire encastré permettant de compléter des projets réalisés avec les autres luminaires de la gamme Optix. Idéal pour des espaces restreints tels que des petites pièces ou des circulations. Optiques à réflecteurs aluminisés très basse luminance. Dimmable DALI, compatible bouton poussoir. Température de couleur 3000K. IRC>80. Consistance des couleurs SDCM<3. Flux lumineux 962 lm. Puissance consommée 8,5W. Efficacité lumineuse 113 lm/W. Faible éblouissement UGR<18. Très faible scintillement <5%. IP20, IK07. Classe I. Durée de vie 96 ...

CIBSE TM66

Result			
Category	Points Scored	Maximum possible points	Assessment
Product design	76	134.0	2.3
Manufacturing	23.4	46.5	2
Materials	7	24.0	1.2
Ecosystem	21	43.0	2
Overall performance	127.4	247.5	1.88

How to analyse the score	
0.0 to 0.5	Very poor circular economy performance
0.5 to 1.5	Some circular economy functionality
1.5 to 2.5	Definite/substantial progress to circularity
2.5 to 4.0	Excellent circularity

Technical Memorandum (TM) 66 describes a Circular Economy's main aims, how it can be achieved and what its practice will mean to the different branches of our industry like specifiers, manufacturers, contractors, and Facilities Managers.

The Circular Economy Assessment Method for Manufacturing (CEAM-Make)'s list of 66 searching questions, the majority of which ask for back-up evidence, is split into four sections :

- Product Design : Covering topics such as design for long life and repair
- Manufacturing : Additive and subtractive techniques and localisation
- Materials : Usage of recyclable materials rather than virgin
- Ecosystem : Repair or upgrade services to complement circular economy design

The outcome of the assessment is a single figure rating by which product comparisons can be made. A TM66 score demonstrates a product's performance in the context of a Circular Economy
