

Caractéristiques de la gamme

• Solstice UGR19 200 LUMI HCL 23W 2050lm SSC - Downlight LED rond alliant haut confort visuel et performances élevées, équipé de la technologie LumiNature HCL (Human Centring Lighting) avec changement de température de couleur, recréant au plus proche le spectre lumineux du soleil, sans aucun pic de bleu; avec un excellent rendu des couleurs dans toutes les teintes. Réflecteur polycarbonate et dissipateur de chaleur aluminium. Réflecteur argent et collerette blanche. Faible éblouissement UGR<19 jusqu'à 2400lm, avec une large distributio...

CIBSE TM66

Result				How to analyse the score	
Category	Points Scored	Maximum possible points	Assessment	Score Range	Performance Level
Product design	75	134.0	2.2	0.0 to 0.5	Very poor circular economy performance
Manufacturing	18.7	46.5	1.6	0.5 to 1.5	Some circular economy functionality
Materials	4	24.0	0.7	1.5 to 2.5	Definite/substantial progress to circularity
Ecosystem	19	43.0	1.8	2.5 to 4.0	Excellent circularity
Overall performance	116.7	247.5	1.58		

Technical Memorandum (TM) 66 describes a Circular Economy's main aims, how it can be achieved and what its practice will mean to the different branches of our industry like specifiers, manufacturers, contractors, and Facilities Managers.

The Circular Economy Assessment Method for Manufacturing (CEAM-Make)'s list of 66 searching questions, the majority of which ask for back-up evidence, is split into four sections :

- Product Design : Covering topics such as design for long life and repair
- Manufacturing : Additive and subtractive techniques and localisation
- Materials : Usage of recyclable materials rather than virgin
- Ecosystem : Repair or upgrade services to complement circular economy design

The outcome of the assessment is a single figure rating by which product comparisons can be made. A TM66 score demonstrates a product's performance in the context of a Circular Economy
