

START Batten 1200 3000/5000lm 830/840
0048978

Productkenmerken

• START Batten 1200 20/35W 3000/5000lm 830/840 - Meervoudig vermogen polycarbonaat LED-armatuur met dubbele CCT-keuzeschakelaars. Voorgeboorde uiteinden voor bedrading. Dubbele kleurtemperatuur 3000/4000K, CRI80. Uitgangslichtstroom 3000/5000lm. Energieverbruik 20,5/35,5W. Lichtrendement: 141lm/W. Vermogensfactor: 0,9. Harmonische vervorming: 20%. Levensduur (L70): 100.000 uur. Fotobiologisch risico GR1, IP20, IK08. Gloeidraadtest 650°C. Bedrijfstemperaturen van -20°C tot 40°C. Klasse I. Niet-dimbare driver. Optionele MW On/Off beweging...

CIBSE TM66

Result				
Category	Points Scored	Maximum possible points	Assessment	
Product design	71	134.0	2.1	
Manufacturing	17.1	46.5	1.5	
Materials	7	24.0	1.2	
Ecosystem	18	43.0	1.7	
Overall performance	113.1	247.5	1.63	

How to analyse the score	
0.0 to 0.5	Very poor circular economy performance
0.5 to 1.5	Some circular economy functionality
1.5 to 2.5	Definite/substantial progress to circularity
2.5 to 4.0	Excellent circularity

Technical Memorandum (TM) 66 describes a Circular Economy’s main aims, how it can be achieved and what it’s practice will mean to the different branches of our industry like specifiers, manufacturers, contractors, and Facilities Managers.

The Circular Economy Assement Method for Manufacturing (CEAM-Make)’s list of 66 searching questions, the majority of which askfor back-up evidence, is split into four sections :

- Product Design :
Manufacturing :
Materials :
Ecosystem :
- Covering topics such as design for long life and repair
Additive and subtractive techniques and localisation
Usage of recyclable materials rather than virgin
Repair or upgrade services to complement circular economy design

The outcome of the assement is a single figure rating by which product comparisons can be made. A TM66 score demonstrates a product’s performance in the context of a Circular Economy
